Be tick aware

Sharing on behalf of Nova Scotia Public Health

In summer and fall, people spend time at Nova Scotia's many beautiful beaches, parks, and wooded areas. However, we need to be mindful of the presence of ticks and how we can protect ourselves. These small insects are found across Nova Scotia and can cause tick-borne diseases (TBDs), including Lyme disease and anaplasmosis.

Ticks like moist and humid environments and can be found in or near woods, shrubs, leaf litter, long grass, urban parks and gardens. They can be very small, which makes them hard to spot and their bites don't hurt, which makes it difficult to know when you've been bitten.

Visit NovaScotia.ca/TickSafety and learn:

- How to protect yourself - especially in grassy, wooded, or shrub-covered areas
- What to do if you find a tick on yourself/your child
- The signs and symptoms of tick-borne illnesses
